PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring Software Developer with knowledge of Python, SQL, web development, and database management. Skilled in problem-solving and application development, with a strong interest in building efficient, scalable software solutions and continuously improving technical skills.

EDUCATION

B.Tech in Information Technology, 2022 – 2026
Malla Reddy Institute of Technology and Sciences
CGPA: 8.0/10

Class XII, *Bhashyam Junior College* 2020 – 2022
7.2/10

Class X, *New Era High School* 2020
10.0/10

TECHNICAL SKILLS

Programming
Python, JavaScript

Web Development
HTML, CSS, Flask, Bootstrap

Database
MySQL, SQLAlchemy, SQL

Tools
Git, GitHub, VS Code, Render

PROJECTS

Smart Library Management System, *Python, Flask, MySQL*
- Built a library website using Flask, SQLAlchemy and MySQL to manage students, books and borrowing records.
- Implemented admin login/logout and pages to add, edit, delete, search and view student and book records.
- Developed book issue and return features with due dates, automatic fine calculation and reminders for upcoming and overdue books.

Real-Time Weapon Detection System, *YOLO, OpenCV, Deep Learning, Flask*
- Developed a real-time weapon detection system in Python using a YOLO-based object detection model.
- Processed image and video inputs with OpenCV to identify weapon-like objects and generate bounding boxes with confidence scores.
- Integrated the trained model with a Flask backend to handle image uploads and return detection results.

CERTIFICATIONS & ACHIEVEMENTS

GenAI Powered Data Analytics, *Tata Forage* 2026

Full Stack Web Developer Certification, *Next Wave*
